**SIM card/Micro SD card installation and removal:**

When you order a mobile phone service, you will receive a Subscriber Identity Module (SIM) card that contains your order details, such as a personal identification number (PIN) and optional service.

First open the back cover. When installing the SIM card or SD card, turn up the sheet metal under the direction marked on the sheet metal. Insert the SIM card in accordance with the slot prompt direction as the following picture. The chip of the card should be down. Put the chip of SD card down and insert the corresponding slot. In the end, push the slot on the sheet metal and buckle in place.

Note: Please shut down before removing the SIM card or memory card, and then remove the SIM card or SD card. Do not press the SIM card or SD card to the opposite direction. After installation is complete, be sure to tightly battery cover, tightening the battery cover screw lock, to avoid the damage of water or dirt entering the mobile phone.

Only RugGear battery cover and accessories can be used.

Waterproof and dust proof usage strategy:

Your device has been tested and proved in certain conditions with waterproof and dustproof performance in accordance with international standard IEC 60529. IP level as follows:

- **0**: There is no effect when water drops drop on the cover when mobile phone tilts to 15 degrees, there is no effect when water drops from 60 degrees onto cover.
- **1**: When a liquid is splashed on the mobile phone in any direction, rinse with water without any damage. There is no effect when the mobile phone is flushed with water.
- **2**: Prevent harmful dust from accumulating. Prevent solid bigger than 1 mm from intrusion. Prevent substance bigger than 1 mm from intrusion. Prevent small solid from intrusion. Prevent middle solid from intrusion. Prevent large solid from intrusion.
In order to avoid water or dust on your phone, please follow the below tips:

- Make sure that the battery cover is closed. The battery cover, the buttons and the USB connector should not be exposed to dust or water.
- Do not expose your phone to an environment with water, such as the rain, snow or inside a vehicle with the windows open. Do not use in hot springs or high temperature water, waterproof means the device can be submerged in 1 meter of water for 30 minutes. Do not swim or take a shower with your phone.
- Do not expose your phone to brine, water, or soapy water.
- Do not open the battery cover when the body is not completely dry.
- Do not open the battery cover with wet hands or when the body is wet.
- Do not clean the product with chemicals such as alcohol.
- Do not open the product when it is not 100% dry. Rub the product to remove water or dust.

Extended battery life tips:

1. Turn off unnecessary operations when the phone is not in use. For example, you can turn off Bluetooth, Wi-Fi, GPS, and the vibrate function when you are not using them.
2. Use the official earphone that comes with the phone. Avoid using third-party earphones that may cause hearing loss.
3. Keep your phone away from extreme temperatures, such as direct sunlight or in a vehicle with the windows open.
4. Keep your phone away from electromagnetic fields, such as microwave ovens or TVs.
5. Avoid using the phone while charging.
6. Use the phone in a well-ventilated area. Do not place the phone in a closed area, such as a purse or pocket.

The mobile phone can be used only for personal use and cannot be used for commercial purposes. The SAR limit of Europe is 2.0 W/kg. The device has been tested against this SAR limit. The highest SAR values reported are as follows:

- Wi-Fi: 0.47 W/kg
- Bluetooth: 0.76 W/kg
- 2G: 0.81 W/kg
- 3G: 0.81 W/kg
- 4G: 0.81 W/kg
- 5G: 0.81 W/kg

The phone’s normal operating temperature is -10 °C to +50 °C. The use of accessories that do not satisfy these requirements may not comply with RF exposure requirements, and should be avoided.

Security Information

- Do not save sensitive information, such as passwords, on your phone. If you lose your phone, your personal information may be compromised.
- Use a strong password and enable unused features, such as location services, to prevent unauthorized access.
- Keep your phone up to date with the latest software updates to protect against security threats.

Caution:

- The phone is an electrochemical device and can cause skin irritation if not handled properly.
- Do not disassemble the phone, as it may cause damage to internal components.
